Our Programs

STEM Centers
STEMpower establishes STEM centers in Sub- Saharan Africa, offering hands-on education and innovation in robotics, coding, engineering, and design to K-12 and college students.

Mobile STEM Lab
STEM Lab's trucks, bringing the teaching environment in remote schools where infrastructure and teaching materials are not readily available

Girls In STEM
Teaching young women hands-on STEM learning through role models, thereby facilitating an equal opportunity for girls to pursue and thrive in STEM careers

Interactive Science Museum
A place where students are attracted annually through fascinating demonstrations that make science fun and interesting.

STEM TV
The science TV show reaches students in urban and rural areas with over five million viewers across Ethiopia.

Entrepreneurship and Incubation Program

offers training, mentorship, and resources to support innovators and aspiring entrepreneurs in wealth and job creation.

Fab-Lab

Maker space transforms ideas into functional prototypes and marketable products.
